Journey to Japan

This article is the first of a series wherein Mr. Wood will tell us about the wonders of his trip —

SOJOURN ON VANCOUVER ISLAND

by T. Geo. Wood.

Our out ward trip to Japan is to be taken in three air journeys. Last Wednesday the first lap brought us from Lethbridge - Calgary to Vancouver. The Lethbridge surprise was a farewell greeting from President Gilbert Wells and Rotary Ann Rita. We appreciated their visit and secured a parting picture. Then in Calgary, Steven met us for another pleasant home conversation.

Three hours over B. C. mountains brought Vancouver Sea Island airport with green lawns and shrubs and the seagulls. Flying over clouds is an experience, when you are above them, they seem to a solidity - which would be safe to walk on, yet a soap suds texture of foam.

Woodruff met us and soon we were travelling by station wagon, through Stanley Park, over Lions Gate Bridge and west from Park Royal to Eagle Harbor.

Our son, his wife and daughter are living on Eagle Island. In summer this is a most popular resort with about 100 residents, but now in winter only about 20 families live there.

The Island lies in Fishermans Cove and has all the color of Waterton, near the boat dock, magnified many times. From the large house windows there is a view panorama of continuous action and beauty very much like a technicolor travelog at Brewerton's Capitol Theater.

You see the West Vancouver Clubs yachts and boats, most of them canvassed over for the winter, but also the fishing boats which slip in and out of their berths at all hours.

Wilde of Raymond was the speaker and the trio; Gen Hawkins, Laura Watson and Jeanine Jensen sang the opening and closing songs.

Jacks Drop Semi-Final Opener

Wednesday night Lethbridge Green Acres jumped into a one game lead in the IBL playoffs by edging out the Jacks of Raymond 68-64. Acres had the game under their control till the last five minutes of the game when Raymond put on a pressing defence and had Acres in bad trouble as they gained from a 14 point deficit up to a slim 4 point lead for Lethbridge. From half time Acres fed Jack Lilja who would stand out in centre and freeze the ball until he was forced to pass it.

Lethbridge put on a five man defence which had Jacks stumped till the last five minutes of the game when they pressed the Acres all the way down the floor. Al West had a bad night as he was held to 8 points, one reason being the five man defence of Lethbridge which put five men on Al the instant he moved in to the pivot spot.

Larry West was hot on his long shot. He was the main reason for the last minute rally put on by the desperate band of Raymond hoopsters. Larry and Ray Stevenson both had good nights as they tumbled in 26 and 24.

For Lethbridge Jack Lilja hit a hot lick turning in a 28 point effort. Doug Terry also played a standout game as he turned in a sparkling 15 point performance. Newton collected 10 while Harris chalked up 9.

Lethbridge now leads one game to none in the semifinal round of the International Basketball League.

The winner of the two clubs will advance into the finals against the Magrath - Cardston series winner. Line Up: Raymond — A. West 8, L. West 26, Stevenson 24, Nalder, Shaw 2, Fairbanks, Dahl 4, Snow. Total 64. Lethbridge — Lilja 28, Newton 10, Greenway 6, Terry 15, Harris 9, L. Newton, Kirchner, Peterson, Hanna, Total 68.

On Monday the ratepayers of Raymond will have the opportunity — yes even the obligation — to attend the annual ratepayers meeting to be held in the Town Hall at 8 o'clock.

The affairs of the town are run by an elected mayor, six councillors and the secretary - treasurer. These men fill the positions they do because the majority of the ratepayers believe that they are the best men available to do the job. As in all things there may be, and is, a difference of opinion concerning the above statement and so each year the Ratepayers Meeting is held to give each and every person who pays taxes, and so shows the responsibility of keeping the town going, the chance to make any comment he (or she) likes concerning their business that is our Town.

In recent years the attendance at these ratepayers meetings has been disgraceful — except for those whose positions make it mandatory for

them to attend, less than a dozen citizens have turned out to hear the reports from the various departments and to offer criticisms and suggestions regarding the operation of the Town's business.

The Ratepayers Meeting must be held for the benefit of the towns executive, those men already know the condition or is it held just to give the library board, the school board and the hospital board a chance to speak before the public—it is held for the enlightenment of John Q. Public and every ratepayer should feel it a duty to attend this meeting.

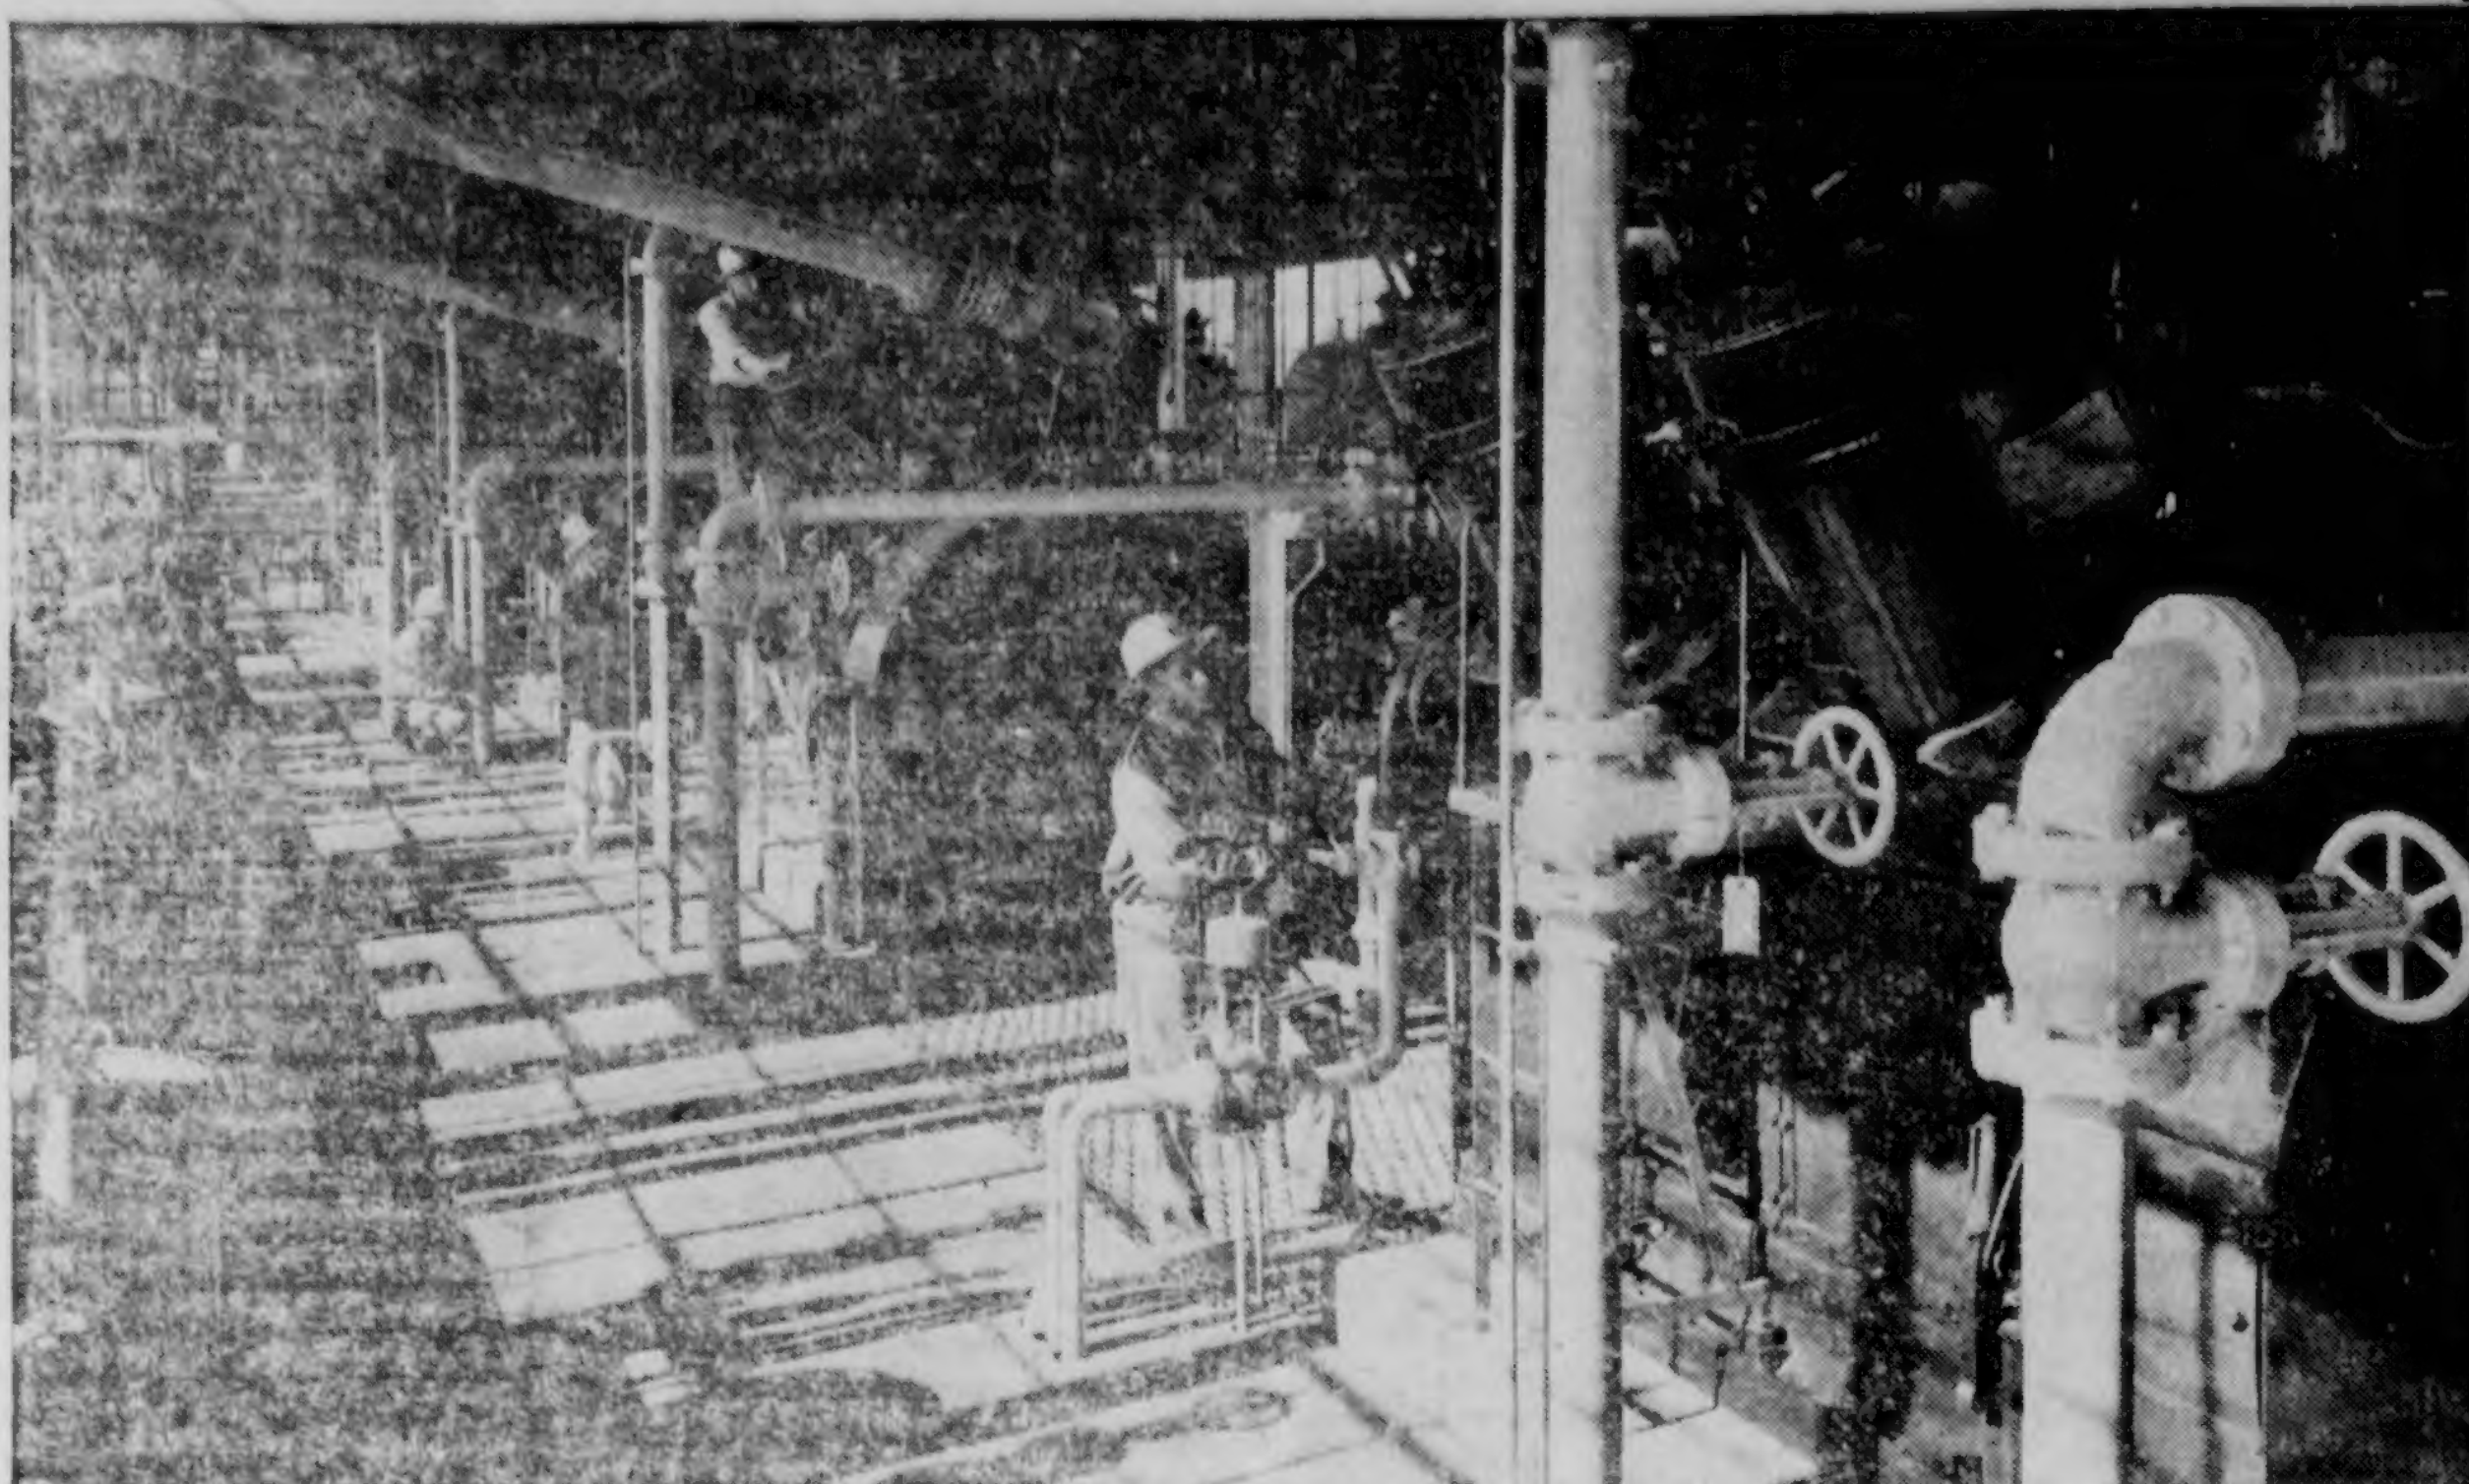

Don't forget, Monday, February 14 at 8 p.m. in the Town Hall — and bring a friend.

Mrs. Norma Meldrum entertained about 20 ladies recently. Handwork, visiting and looking at the pictures Colleen Christensen took on her mission was enjoyed as well as the delicious lunch.

YOUR HEALTH

Did you ever watch a soldier or a sailor walk down the street? Did you notice the vigour of their steps, the flatness of their stomachs, the abounding good health

You, too, can enjoy similar health. No, I don't mean that any national health plan can give it to you. You can give it to yourself.

Soldiers and sailors do not get that vigorous walk by chance. Many of those young men entered the army or navy with protruding stomachs, sagging muscles, and lethargic circulation. But for sixty days they follow a simple set of exercises that put them in good condition.

NOTICE

The Raymond office will be closed all day Tuesday, Feb. 15th, but will be open Wednesday afternoon from 2 p.m. till 5 p.m. Feb. 16th.

Attending the National Optometric Convention in Regina.
C.A. PALMER W.L. MITSON
OPTOMETRISTS

You and I can follow those same exercises. Any librarian can give you books which will tell you how to do it. Any doctor can tell the simple rules of diet. But the books won't do the exercises for you; and the doctor can't do your eating for you. These things are up to you.

Gene Tunney used to say, "You can buy substitutes for exercise in any drugstore — headache powders, antacids, laxatives, pick-me-ups — which promise to confer priceless blessings. But you need never buy them again. You will not need the false stimulation of benzedrine or the pain-killing effects of aspirin; you can shake off your dependence on habit-forming laxatives and overcome the acid torments of heartburn. If you spend fifteen minutes every day in exercise."

Every time I hear politicians prating about some kind of national health plan, I get angry. I think what we need most of all is a personal health plan. The vast majority of us could be healthier if we wanted to be. Fresh air, exercise, lots of good crystal-clear water, and less stuffing of ourselves with food, would do more for health of Canadians than all the millions of dollars squandered on national health plans. The government can't exercise for us, can't eat for us, can't breathe for us. There are still some things in this world

that we each must do for ourselves. Anybody ready for a good fast walk around the block?

Mrs. Clara Nelson has been visiting for a while in Picture Butte, with her children, Mr. and Mrs. L. Erickson

Mr. and Mrs. Orrin Turner entertained at a family dinner on Sunday.

Mr. and Mrs. Bob Thorson of Bow Island, and Mr. and Mrs. Lloyd Ralph enjoyed Sunday dinner with their parents, Mr. and Mrs. Mutt Ralph.

Mrs. Dannie Pittman was hostess to a family dinner on Sunday, when George Pittman of Warner, Mr and Mrs. Paul Redd, Mr. and Mrs. Teddy Gray, Mr. and Mrs. Dean Nelson of Spring Coulee and Mr. and Mrs. Marvin Anderson of Warner enjoyed the tasty meal and visit.

Mrs. Paul Redd left by plane on Wednesday for an extended visit with her children, Mr. and Mrs. Lee Sidebottom (Lavon) in Atherton, California and Mr. and Mrs. Lloyd Robedeaux (Helen) of Las Vegas.

A wedding of interest will take place in the Buddhist Church at 1:30 p.m. on February 19, when May Nishiyama, daughter of Mr. and Mrs. K. Nishiyama will become the bride of Sakae Saruwatari, son of Mr. and Mrs. J. Saruwatari. A reception will follow in the Marquis Hotel in Lethbridge.

Bert Piepgrass of Lethbridge and Henry Piepgrass are busy building a new slaughter-house.

FOURTH WARD CAPTURES JUNIOR M MEN TOURNAY

The classy Raymond Fourth Warders beat the Third Ward crew in the finals of the Junior M Mens Tournay Taylor Stake in the finals to declare and won the right to represent the an All-Stake champion. For the winners Ted Jones was tops as he checked in 28 points. For the losers Ron Heggie was top man turning in a 15 point performance, Ron Minion and Jim Heggie each connected for ten.

The game was a close one with never a great difference between the two teams, with the final score reading 50-45.

RAYMOND KNOCKS OVER LETHBRIDGE IN B LEAGUE ACTION

Raymond Mustangs maintained their undefeated streak by out-scoring Lethbridge B boys 40-32 in a well played game in the Opera House Friday night. Mustangs moved into a quick lead to chalk up a score of 9-2 at the end of the first quarter and had increased it to 18-8 by half time. Lethbridge rallied in the last half and drew within two points of the Raymond cagers, but the local B boys were just too much for the die-hard visitors and began to show their superiority by racking up four unanswered baskets.

For Raymond Jerome Stettar was top point getter with 11 followed by Ted Jones who struck for 9. For Lethbridge Harker, Holland and Strong connected for 12, 9, and 8.
Line up:
Raymond - Jones 9, Stettar 11, Galbraith 6, Vance, Harker 2, Tollestrup, Minion 4, Total 40
Lethbridge - Strong 8, Holland 9, Heaton, Kosaka, Terry 3, Harker 12, Grieve, Golia, Fisher. Total 32.

COMETS REMAIN UNDEFEATED

The power packed Raymond Comets added another win to their endless string of victories by downing the Lethbridge Rams in the Southern Alberta A boys basketball league 63-54 in a close tussel. Comets led all the way although they were in trouble constantly throughout the game. Raymond cagers racked up a close 17-11 score at quarter time and didn't gain much at half time when the score board read 30-23. Jack Hicken and Jess Gibb paced that way from the opening play with never more than a ten point difference. The game stayed ference.

the Comets connecting for 16 and 14. Delyn Hirsche, Don Attwood and Dennis Minion potted 10, 9 and 9 points respectively.
Flashy Harry Blacker was the pressure man for Lethbridge as he turned in a red hot performance, tumbling in 27 points. Bill Pizey was next with 11.

JACKS GO ON SCORING SPREE

In one of the most wide open games of the season the Union Jacks swept past the idle Cardston Maple Leafs, running up a score of 123-67. By half time the Jacks had run up a one-sided score of 63-38 and were putting forth very little effort. Each team was checking loosely and was only concerned offensively.

Allen West won the IBL scoring championship as he racked up 44 points without stopping to think about it. It was the second year in succession that the lanky Raymond cager has received the honor of individual scoring champ. Al needed 17 points to clinch top spot and he had these and some to spare by half time.

Larry West checked in with a fine performance as he dented the twine for an impressive 30 point barrage. Pete Shaw and Lee Fairbanks turned in top notch efforts as they tallied for 20 and 10 respectively.

For Cardston, Sloan was top man with an 11 point effort followed by Beazer with 10.

The game was the last league game of the season and it made no changes in the league standing. Magrath ended in top spot two points ahead of Raymond who occupy second spot. Lethbridge finished third while Cardston has only one win and are in cellar position.

Lineup:
Raymond - A. West 44, L. West 30, Stevenson 11, Shaw 20, Nalder 4, Fairbanks 10, Dahl 2, Snow 2, Total - 123
Cardston - Sloan 11, S. Sheen 7, R. Sheen 1, Caldwell 1, Beazer 10, Sanders 9, Jensen 8, Williams 5, Woolf 8, Hadfield 6. Total 67.

Keeps Fish Dinner on Hand in Basement

Alex McFarlane of Cannifton, Ont., not only catches the big ones in Moira river, but he also has fish in his basement. Recently he hooked this 50-inch muskie, which was still alive when he arrived home, so he put the fish in his cistern. The musky was given a few feet of line, which keeps him a safe distance from other small fish which McFarlane keeps in the cistern.

JACKS SQUEEZE PAST ACRES IN THRILLER

Held over from last week.

A near sellout crowd watched the Jacks edge out the highly rated Green Acres of Lethbridge on Monday night in Lethbridge by a score of 87-85. The game was a very close one with the score tied 18 times throughout the game and never more than a 7 point difference between the two teams. The Jacks dominated the play in the first 12 minutes but by half time the Jacks had ran up a score of 40-33 in their favor. After 7 hectic minutes of play of play in the second half Acres tied it up at 48-48.

Starry little Jack Lilja was the only factor that kept Lethbridge in the game as his 34 point effort was the spark to keep Acres hopes alight. Tireless Don Newton sparkled with a 22 point effort for the losers cause.

Lanky Al West played one of his best games this season as he chalked up 33 points most of which were sweeping hook shots off either hand. Larry West also played a stand out game as he connected for 25. Ray Stevenson tumbled in 14.

The game put Raymond in a tie for top spot with the Magrath Rockets who have two games left to play while Jacks have only one. Lethbridge occupies second spot while Cardston is all alone in the cellar with a single win.

4H Club Meets

A regular meeting of the Raymond 4H Club was held on Wednesday February 2nd, in the Raymond High School with Murray Holt, Club Leader, Heide Karaki, Assistant Club Leader and all club members in attendance.

The meeting was called to order by the President, Lavonne Fraser, and the 4H Pledge was led by Jeanette Stetar. The minutes of the last meeting were read by Secretary Virginia Fraser.

The program consisted of three talks by club members: Gloria Stetar, Preparing Calves for Showing; Deanne Dahl, Washing Calves Before Showing; and Robert Holt, Showing

of Club Calves.

It was decided that the next meeting would be in the form of a tour of members' calves and a judging contest to be held on the first Saturday in March.

The meeting adjourned at 4:45 p.m. A lunch was served by the lunch committee.

—Max Holt

Mrs. Ruth Ackroyd was hostess to the Glee-ette Club Monday evening. After the singing practice lunch was served. Mrs. Virginia Baker was assistant hostess.

Johnny Thompson and Eddie Zobel are working in the Town and Country store in Lethbridge.

The NOTICE which previously appeared under this heading unfortunately contained errors in the Schedule of Rates. The present notice accordingly replaces the earlier notice and correctly sets forth the Schedule of Rates. Attention is drawn to the fact that the vote will take place on MARCH 7 and not on February 16, as previously published.

Re: Town of Raymond Bylaw No 493A-Natural Gas Franchise

The following is a synopsis of Bylaw No 493A of the Town of Raymond which has been given first and second readings by the Council and will be finally passed within four weeks after the assent of the Proprietary Electors of the Town of Raymond voting thereon.

The Bylaw provides:

1. That the Mayor and Secretary-Treasurer of the Town of Raymond be authorized to sign an agreement on behalf of the Town of Raymond with the Canadian Western Natural Gas Company Limited for the supply of Natural Gas to the inhabitants of the said town as soon as same is ratified by two-thirds of the proprietary electors of the Town of Raymond voting thereon when the said bylaw is submitted.
2. This Bylaw is subject to the approval of the Board of Public Utility Commissioners and has been approved by the said Board subject to the approval of the Proprietary electors.

FOLLOWING IS A SYNOPSIS OF PROPOSED AGREEMENT

1. The Agreement is between the Town of Raymond and Canadian Western Natural Gas Company Limited.
2. The Company agrees to supply gas to the Town and inhabitants on or before December 31st, 1955, and the Town agrees to grant a franchise to the Company for ten years from December 31st, 1955.
3. The Company agrees to supply a performance bond in the sum of \$5,000, to supply gas by December 31st, 1955 and the Town shall give an extension of this time on good cause shown by the Company.
4. If the Company decides that it cannot supply gas as provided in the bond then the \$5,000 shall be forfeited.
5. The Town gives the Company the right to excavate in the streets and lanes to lay the necessary pipe and fittings.
6. The Company agrees to give the Town plans of its distribution system, to do as little damage as possible and will indemnify the Town for damages or claims in connection with Company operations.
7. The Company will deliver gas to the property line of customers.
8. The Town agrees to join with the Company in an application to the Provincial Government validating the said agreement.
9. The contract may be renewed for a further period of ten years.
10. The rates for gas shall be such as are agreed upon by the parties - failing such agreement, at prices fixed by the Utility Board.
11. All equipment, plant and pipe lines are subject to Town taxation but taxes shall not exceed 5% of gross receipts of the Company and shall not exceed 1% of gross receipts for first five years.

SCHEDULE OF RATES AGREED ON IS AS FOLLOWS

Domestic - First 2 MCF or less per month \$2.50
all additional MCF per month .65
minimum monthly charge 2.50

When accounts not paid by due date rate increases 4¢ per MCF.

Commercial and Industrial - available to those using more than 542 MCF per year.

Fixed charge \$12.50 per month
plus commodity charge .40 per MCF
Minimum monthly charge \$12.50

When accounts not paid by due date rate increases by 3¢ per MCF.

NOTICE

I, Warren L. Jones, Returning Officer appointed to take a vote of the Proprietary Electors of the Town of Raymond on proposed Bylaw No 493A to grant a ten year Franchise for the Supply of Natural Gas to the Town of Raymond.

Certify that the above is a true synopsis of Town of Raymond Bylaw No 493A, proposed agreement between Town of Raymond and Canadian Western Natural Gas Company Limited and proposed schedule of rates, which bylaw has been introduced and given first reading and will be finally passed by the Council within four (4) weeks of the assent of the Proprietary Electors voting thereon

AND FURTHER TAKE NOTICE that I will attend at the Town Hall, Raymond, on March 7th, 1955, for taking the vote of the Proprietary Electors of the Town of Raymond for and against the said Bylaw. The Polls will be open between the hours of ten (10) o'clock in the forenoon and seven (7) o'clock in the afternoon.

At ten o'clock in the forenoon of the following day I will sum up the votes and declare the result.

Dated 12th February, 1955.

Wanted— Penpals

M.A.O. RABUS,
174 Upper King Street,
LAGOS, NIGERIA,
2nd November, 1954.

Dear Editor:

It was to my greatest pleasure and anxiety to have come through my difficulties my success in securing your address as the chief editor of this newspaper.

I quite agree with my friend who transfer your address to me, said he, newspaper has the greatest influence to direct the attentions of average American citizens to the man who wants penpals.

Surely, with hope I think I will meet my desire by publishing my name and address in your newspapers as one of the African citizens who wants penpals may be Boys, Girls, Ladies, Gents, men and women of your country.

During the transactions of letters I will satisfy anybody who desires to know the physics, politics, socialisms and the economics of this state.

I will like to exchange African products such as leopard skins, snake skins and crocodile skins hand bags, Raphia bags, camel skins and snake skins slippers in sizes, dagger knife, African combs, Jungle drums for melodious musics, House dressing calabashes, ebony knife, carved ebony images etc with the American products such as:— sweater, tee shirts, knitted shirts, towels, soaps, Belts, pens, dressing shirts, sport shirts, Nylon shirts and wallets etc but all in medium sizes.

Hope with your best help I will meet my demand and I promise to reply all letters written to me by air mail and satisfactorily. Expecting to hear from you as soon as possible.

I pause,
Yours faithfully,
M.A.O. RABUS.

Mrs. Lulu Gibb of Taber visited here with her parents, Mr. and Mrs. Wm. Paris, on Saturday.

You can cash a cheque or bank your money without leaving the seat of your car at the curb-teller which the Bank of Montreal has installed as part of its newly opened main office at London, Ont. It saves endless time and trouble looking for a parking space and queuing up inside the bank, and most transactions are completed in less than a minute. The first curb-service banking unit in Canada, this new installation was designed by the bank's chief architect in collaboration with the manufacturers, and is the only one of its kind in the world. Picture shows London's Mayor Allan Rush, an old customer of the bank who cut the ribbon signifying the opening of Canada's

most modern banking office, making the first deposit in the new bank. Serving him at the tellers window is Gordon Ball, B of M president, who 30 years before was teller-accountant at the little Allsa Craig branch, 17 miles from London. Standing by the curb-teller are Broadcaster Ward Cornell and B.C. Gardner, chairman of the bank's board of directors.

This is THE MARK OF A NEW AGE!

That big, bold Sweep-Sight Windshield—curving back to vertical corner posts—is easy-to-see evidence that Chevrolet has cast aside the tradition of the past to start a whole new age of low-cost motoring. It's smarter to look at—safer to look out of—and it's only part of Chevrolet's new outlook for '55!

Yes, Chevrolet brings you a whole new outlook in low-cost motoring for 1955! It's best symbolized, we think, by the sweeping expanse of windshield that widens your view of the road and lets you "see through" the corners for greater safety.

The car with the new idea! Besides widening your view of the road, the Motoramic Chevrolet broadens the whole horizon of the low-priced car. It was built around the idea that a car doesn't have to be high-priced to look, ride and

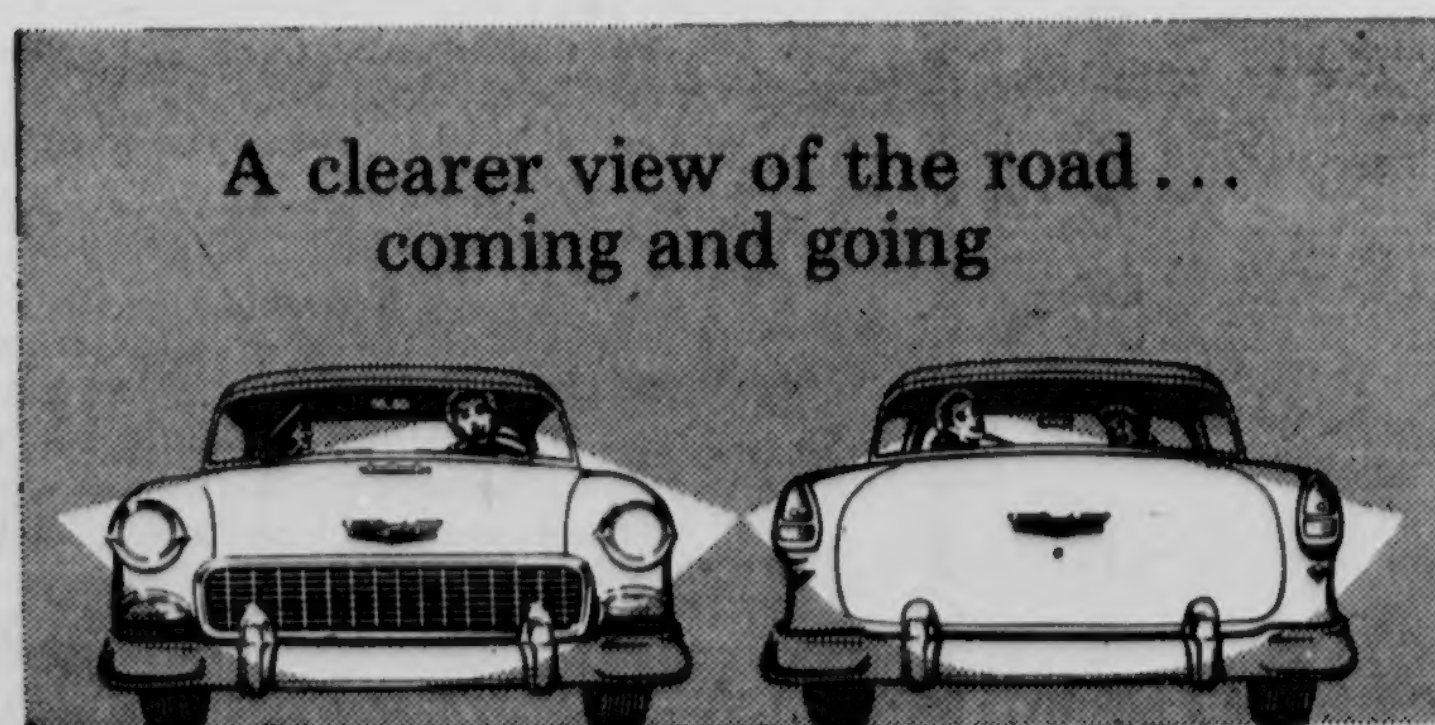

perform like it. A lot of time and sweat went into the building. A lot of old traditions went out the window because they didn't measure up to this daring new concept. Trust Chevrolet to have the resources and the skill—yes, and the courage—to break so completely with the past.

Everything's new in Chevrolet! Everything—from its tubeless tires to its lower top. There's new beauty with that long, low "let's go" look! New fun underfoot with the new "Turbo-Fire" V8 and the new "Blue-Flame" six! A new

choice of drives—new Overdrive, Super-Smooth Powerglide (extra-cost options), and new standard transmission! A wonderful new ride! New High-Level ventilation! But we can't even begin to give you the whole story here.

Look who's stealing whose thunder!

Chevrolet's stealing the thunder from the high-priced cars in more ways than one! Come in, drive it, and you'll see why the Motoramic Chevrolet starts a new and exciting age of low-cost motoring. This you're going to love!

A clearer view of the road . . .
coming and going

MORE THAN A NEW CAR...
A WHOLE NEW CONCEPT OF
LOW-COST MOTORING!

Everything's new in the

An *all-round beauty...*
with an *all-round view!*

Take a long, slow stroll around the '55 Pontiac... let your eyes linger on its low, lovely lines. Watch how your gaze is caught and held by the sparkle of a massive front bumper... then gently led from the proud front around to the impressive rear quarter. Now, slide behind the wheel... and after you've caught your breath, take a sweep-circle view. Oh, those windshields... you'll swear there are acres of eye-room!... And the view's just as spacious all 'round the compass. Then when you drive this all-new car, you'll know it's the wide-open wonder for '55! With Pontiac's all-round beauty... and Pontiac's all-round view, the world's your oyster... when the '55 Pontiac is your car. Do try it—right now!

Here's the "high-priced" WRAP-AROUND WINDSHIELD and 4 fender visibility at a low, low price! See-through area of Pontiac's new front windshield has been increased up to 18%... reducing blind spots caused by corner pillars. You now really see out both front and rear for more pleasure and safety!

Here's beauty that's out of this world with ALL-NEW Glamorous Interiors! You've never seen anything to match the luxury of Pontiac's appointments. There's a brand new instrument panel with recessed controls... brand new steering wheel... more leg room and new, deep-seated comfort in front and back seats!

Here's an ALL-NEW RECIRCULATING BALL-TYPE STEERING that reduces steering effort! Drive the '55 Pontiac and see how it corners and curves, with hardly any effort! Road shocks are cushioned... steering effort is reduced... but steering is sharp and quick. Oh... what a beauty of a car to handle!

Here's Pontiac's revolutionary ALL-NEW 4-WAY BALANCED RIDE! Pontiac's completely new chassis brings you level riding, firm handling, eliminates nose-dive stops! This amazing smoothness is due to a brand new frame, new front and rear suspensions, new tubeless tires, plus new steering and brakes!

Here's newness that starts at the ground with ALL-NEW TUBELESS TIRES! New tubeless tires give a smoother ride... added protection against blow-outs from impact breaks. And ordinary punctures can be repaired right on the rim itself! Problems relating to tube failure have now become a thing of the past!

...AND THE '55 PONTIAC BOASTS THE CLOSEST THING TO ALL-ROUND CUSTOM-BUILT PERFORMANCE ON THE ROAD TODAY!

JOURNEY TO JAPAN
(continued from page one)

In the foreground is a big red dredge, MCB No2 which from 8 to 6 is continually dropping its clamshell bucket to the bottom of the harbor, hoisting mud and water to a barge which is periodically towed and dumped into the deep ocean.

At night the crews quarters are lit up and illuminate all the cove.

As the main highway to Horseshoe Bay and the Black Ball ferry to Nanaimo runs in the middle distance, there is a steady stream of cars and trucks day and night in both directions. A little higher up the hill is the Right of Way for the P.A.E. railway which is now contracted to be built to Squamish, and the sound of tree cutting and donkey engines is part of the sound effects. Snow covered mountains close in the picture.

So now, in place of a car to get home with — you wind up at a parking spot, hike a short distance to the boat float and load up the rowboat with yourself, your groceries, your Prestologs, and all your belongings, ball out the boat, find something to put on the wet seats, and start for home.

The distance is short, only about 200 yards, but wait a minute, what about the tide? Here there is a 16-foot change in the water two times every day.

At high tide all the reefs and shoals are covered and some marked with yellow and black squared flags. No trouble to cross, but at low tide take care: your float has sunk so far that your boat has grounded and must be pushed down into the water, which is not easy, especially if you are in the middle of a downpour. Sometimes your boat grounds ten or twelve feet away from the float. What do do? Woodruff jumped out and pushed but alas, water ran in over his boots, and so partly soaked we reached home.

Bad for us too, Friday night a new dredge came in harbor with boom straight up, caught the power lines, pulled down the transformer and plunged the island inhabitants into darkness, with no heat but wood fires, no light but candles, no radios or music for several days.

Cutting damp wood, salvaged from the ocean, is fine exercise, but you can burn one hour cutting in about three, so that exercise is nearly continuous. All of this is good fun.

Sunday we visited the North Vancouver L.D.S. Branch Sunday School a picturesque drive. There were about fifty people there and we were made very welcome visitors. Like Latter Day Saints everywhere they have a live project, to build for them selves a suitable place of worship. Now they meet in I.O.O.F. Hall, which, however, was clean and pleasant.

We had one putt putt trip from Eagle Harbor around Passage Island, up Howe Sound, trolling for gulse. These are second year young salmon I am told, but as usual none were caught, so you will have to accept the story.

The cold wind and fairly high waves all made one realize that the elements here could very soon make humanity helpless, in case of trouble.

As a fisher, however, this Vancouver area fulfills most of my appetite.

So far we have indulged in oysters on the half-shell, curried shrimps, fresh herring with roe and as staples halibut, salmon, fresh crab and finnan haddie.

This would not appeal to steak lovers like Mayor Frank R. Taylor or Gerald Snow, but there are those at home who would appreciate this fare. Will Stone for instance.

I am closing this essay in the reading room of the Vancouver Club with the great Stanley Park on my left, C.P.R. station in the foreground with ferries and steamers crossing Burrard Inlet and the North Shore Mountains as a beautiful backdrop.

Weather: Oh yes! We have had variety.

- 1—Day sunshine
 - 2—Days fog
 - 2—Days rain, continuous and heavy
- A light frost last night and a good sun, and rolling clouds today.

INDUSTRIES AND LABOUR IN ALBERTA

The Department of Industries and Labour carries many varied responsibilities. It takes an essential part in the development of industry throughout Alberta and in creating improved conditions affecting the whole economy of the Province.

One of the chief duties of the Department is the maintenance of harmonious relations between labour and management. A special branch — the Board of Industrial Relations — administers the Alberta Labour Act, which in itself has gained wide recognition as outstanding legislation of its kind. By its provisions, the Board of Industrial Relations has jurisdiction over such matters as minimum wages, hours of work, holiday and overtime pay, as well as general conditions affecting the welfare of the worker. The Act applies to all employers and employees in the province except farm labour and domestic servants.

Full collective bargaining rights are guaranteed under the Act and the procedure for settling disputes through negotiation, conciliation and arbitration is carefully outlined.

Alberta's record is singularly free from strike action. There have been relatively few major disputes. The department gives careful consideration to problems of both labour and management.

In Alberta, with its marked industrial expansion, an adequate supply of skilled labour is essential. The training of young men and women for designated trades is responsibility of the apprenticeship Board and is a joint undertaking of the Provincial and Federal Governments. In relation to population, more apprentices are being trained in Alberta than in any other Canadian province.

The Co-operative Activities Branch of the department supervises all types of co-operatives in Alberta. These include rural electrification associations, producer co-operatives livestock feeders associations and credit unions.

Special reference should be made to the Rural Electrification Associations through which farmers build power lines and electrify their farm. Assisted by the Co-operative Activities Branch, these associations have scored a remarkable record, with between five and six thousand additional farms being electrified each year. Total number is now well over 28,000 — an increase of some 14,000 since 1949.

A revolving fund of \$10,000,000 has been made available by the Alberta Government, from which Rural Electrification associations may borrow as much as 85% of the money needed to finance the building of their lines.

The Alberta Power Commission, charged with the general supervision and encouragement of all matters relating to electric power in the province, functions as a branch of the Department of Industries and Labour.

The Provincial Marketing Board, another branch, is empowered to provide producers, manufacturers, distributors and consumers with the means of buying and selling goods at fair and equitable prices. Its policy of buying raw materials in mass quantities may be applied where necessary, and is of great benefit to the small Alberta manufacturer.

Three special inspection services, designed to protect life and property, are conducted by other branches of the department. These are inspections of boilers and pressure vessels by the Boilers Branch installation and appliances by the Electrical Protection Branch, (and under the provisions of the Factories Act) grain elevators, freight and passenger elevators, and oil drilling rigs. The Factories Act also covers such matters as sanitary regulations and fire prevention.

Another division of the Department of Industries and Labour is the Bureau of Statistics. The function of the bureau is to collect and compile statistics of value not only to the various departments of government but to the public in general.

Alberta Golden Jubilee
1905 — 1955

The fiftieth year has been a year of jubilation ever since the children of Israel were commanded to mark that year as a time of ingathering and celebration. It is right that we in Alberta, also, should hallow our fiftieth year for there is much cause for thanksgiving and rejoicing in a land so richly blessed by the Creator. A Golden Jubilee year serves only to increase and concentrate the praise that should continually be going forth to God from a free and prosperous people.

Alberta Jubilee Celebrations will continue from January to December but activities will be concentrated during the summer months beginning June 5th. The climax will come during Golden Jubilee Week of September 5th to 10th when gay parades will move through crowded streets and groups will join in the presentation of colorful pageants. Work completed will be dedicated and work to be done will be officially recognized by the traditional laying of the corner stone.

Preceding this week of festive activities will be the Provincial Day of Prayer. September 4th has been set aside as a day in which all citizens may give thanks for the progress of the past half century and humbly ask for continued prosperity in the coming years.

All babies born in Alberta on Jubilee Day, September 1st, will receive engraved silver spoons and a presentation will also be made to all those married in the Province on Jubilee Day. Illuminated scrolls will be presented to senior citizens who were living in Alberta during 1905 and are residents during 1955.

Rustic arches are to be built to provide a permanent, decorative entrance to the Province, and will be erected on main highways leading into the Province to welcome tourists and Jubilee visitors. The program of identifying and marking Alberta historic sights will be intensified during 1955, while the Department of Highways will establish as many picnic table sites as possible, placing shelters over tables where necessary and providing rest rooms wherever possible.

A Red Deer River Valley Memorial Park is to be established in that area of Alberta noted for its relics of the prehistoric ages. This park will be dedicated during celebrations in the Badland district of Steveston.

A special information display will be erected at the Fort Macleod Tourist Information Bureau, a joint project of the Department of Economic Affairs and the Canadian Rockies Tourist Association. This is part of an extensive publicity program being undertaken to advertise and promote all features of Alberta Golden Jubilee.

Special programs will centre around building projects in the Province, including the new auditoria in Edmonton and Calgary. Contracts for their construction provide for completion by September 1st, 1955.

Two mobile caravans are to be purchased to carry and exhibit Golden Jubilee displays. The caravans, which will be equipped with facilities for the projection of motion pictures, will tour Alberta towns, villages and municipalities from June to September as part of local Jubilee programs.

A professional square dance caller will be employed for about three weeks to assist in local Jubilee celebrations and possibly a dance orchestra will be invited to play at special Jubilee dances.

In the field of cultural activities, the University of Alberta Mixed Chorus will tour the Peace River district from May 1st to 10th after which it may be available for performances in different parts of the Province. A song-writing competition, sponsored by the Alberta Music Board and offering three cash prizes for acceptable Jubilee songs is hoped to lead to the publication of a book of Alberta Songs, while a play writing competition for Alberta authors will offer three cash prizes of \$250 each.

Alberta's Golden Jubilee Anthology is expected to be off the press early in March. Included in this book of Alberta articles, fiction and poetry, are reproductions of eight Alberta paintings. These paintings, purchased by the Government, will be on display during the year. Ten thousand copies of the Anthology are being purchased and will be distributed throughout the Province.

Special Jubilee activities in Alberta Schools will be arranged by the Alberta Department of Education, with the Department of Agriculture providing seedlings for beautification projects.

On June 9th Jubilee activities in the schools will end with a program and the dedication of the trees.

To assist municipalities in the organization of local Jubilee celebrations, the Government will make available a grant at 25¢ per capita. This fund may be used for the purchase of colour plaques, Jubilee bunting or decoration but it is hoped that many municipalities will use the fund for the establishment of some permanent project such as rest centres, parks or playgrounds.

As each community is being urged to set up its own Jubilee Committee and to arrange local celebrations, the Alberta Golden Jubilee Committee has sent out questionnaires to each municipality. When returned, these questionnaires will give the Committee information which will enable them to help each community plan their celebration.

TENDERS WANTED

Tenders are being called for the alteration of the corrals and chutes at the Stampede grounds in Raymond. This work is to be done before July 1, 1955, and anyone interested is asked to contact M.L. Depey President, Raymond Stampede Association, for further information.

Mr. and Mrs. Orrin Turner accompanied by Julia Tollestrup were guests of Mr. and Mrs. Dan Holloday in Warner on Monday.

Dr. and Mrs. Harlan Taylor were recent hosts at a before and after party. Before the dance the guests partook of a delicious meal and enjoyed themselves generally with the usual hi-jinks being played on the unsuspecting. When the group returned from the dance they found that vandals had entered the Taylor home and deposited large amounts of torn paper throughout the house. There is still much speculation as to who would do a trick like that.
